** AUSTRALIA. 12365 USB, July 12 at 0614, marine weather by no-nonsense assertive fakevoice, lots of coordinates and UTCs mentioned: conveying a weather map verbally? The longitudes east and the latitudes south. 0618 ID as ``VMC Australian weather ---`` Then listing all its frequencies: 2201, 4426, 6507, 8176, 12365, 16546 and area covered. Then same info for sibling station VMW to 0619.5*. VMC is in Charleville, Qsld, VMW in Wiluna WA. EiBi shows Sound of Hope also on 12365 but none of that now, nor jamming. C`ville is in S central Qsld, very much inland, good for skip distances asea (Glenn Hauser, OK, WOR)

** BENIN. 1566, which I remarked July 4 when hearing TWR`s other carrier on 1476, not being on 1566 in mornings, and still shown 1815-2145 only in MWlist, now *has* been reported in mv-eko of Arctic Radio Club:
``1476 23.5 0317 TWR Africa, Parakou-Serarou, lokal musik (1476.0019) TN
1566 23.5 0319 TWR Africa, Parakou-Serarou, kom upp under BBC (1565.9999) TN
Thomas Nilsson, Ängelholm – Perseus SDR, two 12x4 m Flag-antennas, both reversible``
So 1566 *is* on in the mornings now, repossiblizing NAm DX reception. 23.5 was a Friday, in case significant (Glenn Hauser, OK, WORLD OF RADIO 2303)

** BENIN. Since it`s Monday already, July 14, I strain to detect TWR on 1476 and/or 1566, into E/W loop at 0312-0322, but nothing as I`m tuned to USB from 1475 & 1565 - altho by 0322 I could almost imagine a JJBBA carrier on 1476 amid all the splash from both sides and occasional hi notes from UStations. Still nothing at 0354 check (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, July 10 at 0153, RNB/RNA token English, tuned in late via remote, talking about how RNA MW coverage reaches 1500 km at night; 0154 long credit list already and into Spanish. A repeat? (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, July 14 at 2203, RNA S9+10/20 direct in presumed `Voz do Brasil` at this hour; someone had reported it missing recently. Also UT Tue July 15 at 0155, RNA/RNB in Spanish bit about the Parque Rodeador SW transmitter site, presumably after English bit. 0159 usual ID and s/off routine, but still on at 0202 with ``Garota de Ipanema`` and another hit past 0207 until chop in mid-word at 0208* (Glenn Hauser, OK, WOR)

** CANADA [and non]. 7850 RCUSB, July 15 at 0643, NO signal from CHU, very unusual, off? or due to K-index of 4.33? Still audible on 3330; and WBCQ 9330 still audible S8/S9 during geomag storms reaching G1 level (Glenn Hauser, OK, WOR)

** CANADA. 7850, July 16 a 0618, this CHU is missing again. Richard Langley replied at 1210 UT July 16 to my previous report: ``Shows problems the last couple of days. May be off again this morning as I couldn't see a trace with my indoor equipment. -- Richard Langley``

93.3 at 0133, mono gospel huxter about Ninevah overrides KJKE OKC; again at 0143 when KJKE is about hot flashes. Of the three in MT, one is religious teaching, to put it politely:
KURL 93.3 Billings MT 60.0 kW 213.0 m KURL Radio 93.3 FM. not listed mono 1370/851

94.1 at 0134, ``our home, our music, --- 94-1``. Which of the MT would motto that, KRKX Billings as above, country; or
KOPR 94.1 Butte MT 58.0 kW 566.0 m, rock, Adult Hits, KOPR 94.1 FM 1623/1008

94.5 at 0135, Chinook Village, C&W, Medicine Hat, Xmas in July:
CHAT-FM 94.5 Medicine Hat 100 kW 176.0 m Country Wild 94.5 1833/1139

97.1 at 0145, rock vs local 96.9 ACI, fades, of two full-power in MT, one fits format: KKBR 97.1 Billings MT 50.0 kW 152.0 m Hot AC Mix 97.1 1370/851

100.1 at 0146, $ talk, Asindian accent about Superman movie, critic from Winnipeg, ``This is Commotion`` = program name? CBC? Yes, and yes. Only full-power in W Canada is:
CBRL-FM relay of CBR 1010 100.1 Lethbridge AB 100 kW H only, 184.0 m, mono [sic], CBC Radio One, Calgary 1907/1185

101.3 at 0148, rock CCI to KFDI Wichita. Two in AB would fit:
CJEG-FM 101.3 Bonnyville AB 27.0 kW 114.7 m CHR Hot 101.3 2208/1372 - pretty far beyond PTA but possible
CKIK-FM 101.3 Red Deer AB 50.0 kW 161.0 m Rhythmic CHR Play 101.3 2163/1344 likewise
Of two 100 kW in MT, one rocker:
KRYK 101.3 Chinook MT 100 kW 2070 m Hot AC Sunny 101 1635/1016

101.7 at 0149, Dutch Agriculture, Dutchopener.com, Greg Morgan morning show promo on 980 CJME, Sask. ads, Fryerelectric.com, Univ. of Sask. fund raising; atop always undermod & mono KREJ Medicine Lodge KS
CJME-1-FM relay of CJME 980 101.7 Swift Current SK 100/67 kW, 116 m, News Talk 980 1737/1079

By 0200-0205, MUF is down, opening overing? and I need to quit. At 0400 I see still going, but nexus further west, OK periphery at best (Glenn Hauser, Enid OK, WOR)

** CONGO. 6115, July 10 circa 0500 & 0530, NO signal from R. Congo, certainly not direct vs my noise level, nor via remotes in S Africa, Canary, Portugal. We used to JB hear it before Japan would take over 6115, which in summer would be much later. Brazzaville own SR/SS are 0508/1701, and at latitude 4.25 south, vary little during the year. So if on, need to hear it ASAP in our mornings. Also not even a carrier at 1806-1808 into UTwente, two RSA and one Kenya SDRs.

Andre in S Africa reported hearing it, with a recording, VP in French with mentions of Brazzaville. He doesn`t make clear the times, but recording indicates 1655 & 1707 UT:

``[WOR] Radio Congo back on 6115 kHz -- I heard Radio Congo again tonight, for the first time in two years. Not sure if they've been there all along and just wasn't heard widely, or if this is a return. Here is the video:
https://youtu.be/EHjgsVvu8Tw

Jul 9, 2025 -- In this video, I tune in to Radio Congo (6115 kHz) – a rare catch I haven't heard in almost two years! This state broadcaster from Brazzaville is listed as being on air daily, but it's incredibly difficult to receive from my location in Johannesburg, South Africa, and I haven't heard it since 2023. Was this a return to shortwave, or has it been quietly broadcasting all along and I just haven't heard it? Hard to say – but either way, this is a DXing highlight for me in 2025! The last time I heard it, was in September 2023.

Transmission info (per listed schedules): {where?}
Frequency: 6115 kHz
Time: 05:00-19:00 UTC daily
Language: French & local languages
Power: 1 kW (with unconfirmed reports of a 50 kW upgrade since 2022)``

Surely it has been silent; not in current EiBi or Aoki. WRTH 2025 had sked as 0530-1830. Ron Howard also checked for it: ``On July 10, from about 0515 to 0615 UT, checked 6115 for Radio Congo reactivation, via various Africa & Brazil SDR remotes, but no signal anywhere. Guess we should check about 1700 UT?`` (Glenn Hauser, OK, WORLD OF RADIO 2303)

** CUBA [and non]. 1040 kHz, July 11 at 0634, whooper/wobbler audible under WHO. Had not noticed this for quite some time on any frequency, last logged here May 5 at 0141 (Glenn Hauser, OK, WOR)

** CUBA. 1141 kHz, July 13 at 0343, the only significant het on a 10/kHz bandscan, better on E/W antenna (Glenn Hauser, OK, WOR)

** CUBA. 4765, July 15 at 0048, no signal from R. Progreso direct, tho 5025 has JBA carrier from severely underpowered Rebelde; and by 0132 still no 4765 into Georgia remote, nor at 0155, 0243. Somethings always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 11 at 0520, RHC S9+30/40 but suptorted; with dialog and music, sounds like a drama, from a TV audio relay rather than own programming, as Tony Pavick also suggested at 0400. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9790, July 14 at 0321, S9/+10 of dead air in English from CRI relay, where something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, July 14 at 0517, S9+20 of JBM music on RHC, where something is always wrong (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 14 at 2214, Spanish historical talk no doubt in honor of Bastille Day, mentioning Liberté, Égalité, Fraternité --- and then, RHC ID! A RARE new frequency for them, S9/+10, good modulation level with only slight distortion; and not // 15230 I had just checked at 2212, S9 but very suptorted, intonation sounding Spanish instead of Portuguese. At 2330, 13780 with music is S7/9+10 into Lima SDR. Still on at 2357 direct, but 15230 off by now.

AFAIK, RHC never on 13780 before and not in current schedules, least of all its own, which is still imaginary B23:
https://www.radiohc.cu/de-interes/frecuencias
Axually an accurate current sked would be of-interest, duh. Somethings always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 15 at 2349, new RHC on air again today, S9+10/15 into Georgia SDR, while 15230 is not on. At 0008 UT July 16, 13780 seems off both at Georgia and Lima, but at 0026 Georgia gets a JBA carrier, from what? CRI Nepali from Kashgar is not until 0130 (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 16 at 1341, RHC Spanish NF also in the mornings, S7/S9 direct. 15230 is also on S4/S6 but very suptorted. On second rx does not seem // or at least not synchronized; same at 1405. At 1420 seems // with applause intervals but not synchro, into Georgia SDRs (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 16 at 2215, RHC S9+30 in Spanish with good modulation, and not on 15230. Wonder which transmitter/site and how they finally got it fixed up (Glenn Hauser, OK, WOR)

** CUBA. 13650, July 14 at 2352, S5/S6 of dead air direct or maybe JBM, the CRI relay for years of music fill instead of Portuguese. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA [non]. 5800, July 14 at 0337, WRMI with R. República ID and railing against the dictadura castrista, S9+20/30 (Glenn Hauser, OK, WOR)

** CUBA [non]. 9670, Sun July 13 at 1700+, no signal into UTwente or DL7APJ from Channel 292, scheduled as last chance to hear this month`s `From the Isle of Music`; make it good later? Definitely on at next

check 1829 into both with something else. But Uncle Bill replies:

``Glenn, It was on, I checked a number of SDRs, something was interfering with the signal, especially during the first half hour. Twente became listenable during the second half hour. I don't know whether the first half hour was atmospheric issues (it was audible in a few places like Norway) vs. something like a nearby DRM transmission that fuzzed it out.
SO, If it happens the same way next week with UBMP I'll have to go hunt for another time again. Thanks for noticing. --Bill

tel: 773.267.6548``

I see EiBi has this, nothing closer to 9670:
9655 1600-1900 irr F TDF DIGITAL F SEu i
(Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 17615, July 11 at 0525, music S9/+10 with flutter. EiBi shows CRI German at 05-07 via Urumqi (Glenn Hauser, OK, WOR)

** ETHIOPIA. 6030 & 6110, July 14 at 0339, JBA carriers, surely these in the absence of any other stations; but not on 6090 (Glenn Hauser, OK, WOR)

** FRANCE. Re KUWAIT [non] unID 15540 in last report, in the NASWA iog from Paul Walker: ``WRTH's Mauno Ritola says, with thanks to me for the original report finding it, this is Radio Omid Iran, the update is in the WRTH Web App for A25 (which I don`t have). Via Issoudun France``

Mauno Ritola on WRTH FB: ``Correction: seems that "Omid e-Iran" (Hope of Iran) is the producing organisation behind the transmission and the shortwave operation is called "Radio Zamane Bidari" (Awakening time).``

See also about one of the programmers on it:
https://www.mitrababak.co.uk/radio-omid-iran
https://www-mitrababak-co-uk.translate.goog/blank?_x_tr_sl=fa&_x_tr_tl=en&_x_tr_hl=en&_x_tr_pto=sc&_x_tr_hist=true
(via Glenn Hauser, OK, WOR)

** ITALY. 918 kHz, Fri July 11 at 1904, AM Italia relaying IRRS SW in FSN, 1905 UN News, 1909 songs, S9+22 into nearby Noale SDR. Also still on 1323 but much weaker S9+7, NOT on LW 207 kHz. NEXUS-IBA program schedule still shows 1323 only. I asked IRRS about this:

``In case you have not noticed, as not on your program sked, AM Italia is now and has been active for a while on 918 kHz, and with a much stronger signal than 1323 which is also still on air, as monitored by the nearby Noale SDR. 73, Glenn`` Reply from Alfredo Cotroneo:

``Yes, we are optimizing the infrastructure and running some experiments with different transmitters and antenna configurations on 1323 and 918 kHz. Alfredo`` (Glenn Hauser, OK, WOR)

** KUWAIT [non]. 15540, July 11 at 1843, no signal into UTwente, preparing to check out an unID reported yesterday after 1900 when nothing is listed; but RK had HFCC registered 15540 at 1800-2100 in DRM, and axually once used it for English at 1800. Not in the WOR Hitlist, but SW sked here is probably outdated/imaginary, not

accounting for 15540 after 1800:
https://media.gov.kw/Frequency.aspx?FreqType=RadioSW
Stephen C Wood in Massachusetts was also hearing it mentioning Iran, until 1927* July 10.
Or rather today there is no signal audi/visible, but Synch attempts to lock onto 15540.094- which is a JBA carrier if offtuned in USB. S5/S6 = equivalent to band noise level if compared to 15535 or 15545. Not even anything on 15540 into Kuwait SDR. Also checking Anchorage AK SDR, nothing at any of them by 1925 (Glenn Hauser, OK, WOR)
See FRANCE!

** MEXICO. 760, July 13 at 0340, Mexmx on N/S antenna only, which means it`s close to due south as the E/W loop not getting it at all; while WJR QRM from the NE audible on both. No USA SS fits. Furthermore there is no het, so not XEDGO unless it`s been normalized - that leaves most likely XEABC, 10 kW at night from Edo. Méx. Kept hoping for an ID, but by 0400 hearing WJR only (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, July 13 at 0338 UT and later chex past 0400, continuous noise QRMing KQCV OKC, only on the N/S antenna. Suspect XEERG NL, back to its old trix I thought had been fixed or nullified since last year. Need to check for it in daytime on remote. Which I do at 1523, Brownsville TX the closest: yes, noise peaks atop some unreadable modulation. The only TX 800 is at other end of state, Dumas; and the other XEs are also really too far for daytime (Glenn Hauser, OK, WOR)

** MEXICO. 1140, July 10 at 0601, Mexican NA, choral. Must be XEMR Monterrey, 20 kW supposedly daytimer; used to have much better signal, 50 kW as still in WRTH. Two other XEs on 1140 believed silent, per IRCA Mexican Log. Axual location of R. Esperanza is San Nicolás de los Garza, NL (Glenn Hauser, OK, WOR)

** MEXICO. 1670, July 15 at 0726 UT, Mexmx and ID as ``Focus Radio``, not sure if in English or Spanish, i.e. XEFCR, Reynosa, Tamaulipas, moremx (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, July 11 at 0522, JBA carrier, presumed Station YHWH in another late emission (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6967 AM, July 14 at 0340, S9+20/30 pirate music, OPOB; 0355 still, chanting music, weaker or less modulation. These say it`s Sternradio, including from station itself:
https://www.hfunderground.com/board/index.php/topic,147560.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA. 930, July 13 at 0336 UT, DA best on N/S antenna, some music E/W, still dead at 0350! Must be WKY OKC. Standard derision about stations not caring enough to be sure to modulate (Glenn Hauser, OK, WOR)

** OKLAHOMA. 930, July 14 at 0328 UT, dead air again from WKY OKC, steady S9+10; like last night - a ``quiet hour``? (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 1230 kHz, UT Sun July 13 at 0106 after Fox `news`, hi, lo, current temps somewhere, then full ID for ``WBBZ, broadcasting worldwide from Ponca City, Oklahoma, on 1230 and online``, and into ancient rerun, `Art Bell, Somewhere in Time`, from 15 of Feb 2002. Also found on 1110 KFAB, 690 KGGF and no doubt many others. This is before full nighttime graveyard QRM; as closest 1230, WBBZ can sometimes be barely atop at night (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, July 16 circa 2000 UT, Virtual DJ Radio still going, best audible near US412/81 junxion in Enid, but seems weaker

than before - or line noise level worse. Likewise the never IDed rock music with $tereo pilot on 95.5, peaking about a mile west, at best mostly a hummy dead air (Glenn Hauser, OK, WOR)

** OKLAHOMA. Back in Time is OETA's award-winning documentary series showcasing significant people, events, and stories that shaped the history of Oklahoma.
https://www.oeta.tv/shows/back-in-time/

Television Pioneers episode | 57m 45s | 2025/07/24 |{sic}

Explore the magic of Oklahoma's early television. From Lunch with Ho-Ho to Mazzepa, local shows like Cook's Book, Sooner Shindig, and 3-D Danny captivated audiences. Back in Time features rare footage and interviews to uncover the story of Oklahoma's TV pioneers and the birth of local broadcasting.

https://player.pbs.org/static-files/build/309fe60227cca1f1a6e6.cad1cf10fa95.svg

A 27+ minute episode is currently airing at multiple times; they promote the longer version online. This is quite nostalgic for me! (Glenn Hauser, ex-OKC, Enid, WOR)

** OKLAHOMA [and non]. Far-right extremist group threatens to take weather radars offline

(via Glenn Hauser, Enid, WORLD OF RADIO 2303)

** PANAMA. 28282 CW, July 14 at 2204, VVV HP1DCP/B ... COM 73s. Last heard May 6; still NOT in WGB beacon list, in fact only one HP somewhere else. This one is in QRZ.com: ``HP1DCP Panama flag Panama, RENE IVAN FONSECA, P.O.BOX 0819-09911, REP. OF PANAMA, Panama`` [sic: they sure don`t want to bother with accenting all those á] (Glenn Hauser, OK, WOR)

** ROMANIA. 11945, July 13 at 0114, rapid Romanian, sounds like artificially sped up, then slow song, S9+5/25, the SSOB along with Brasil 11780 S9+25. It`s Galbeni for eastern N America (Glenn Hauser, OK, WOR)

** SOUTH CAROLINA [non]. 7489.9+, July 14 at 0344 gospel orchestral music on WBCQ, not // 5920 WTWW Scourby Bibling, so one of them not TOMBS? 0346 on 7490-, phone calls from fans, Frank Foot? who concludes you are the prophet, since was still hearing on radio during power outage; another from Moses Lake WA for The Overcomer. Then I check 5920 again and find also TOMBS running 29 seconds behind 7489.9 (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715 VG direct, also audible on 15520, 15390, Fri July 11 at 2200, token English from SNR. Preview topic to be tourism increasing in Spain, a favorite destination. 2201 news leads with defence spending to increase troop force by 11% by 2035y; helping Ukraine. 2208 it`s the 30th anniversary of the Institute of Tourism, with 33 offices abroad (Glenn Hauser, OK, WOR)

** SPAIN. 17715 // 15500, Mon July 14 at 2200, token English from SNR, equally S9+20/30 direct on these, also audible on 15520 and JBA? on 15390. Preview topix to be a festival in Córdoba, and killing malaria parasites but not? mosquitos. News leads with something going on in Murcia vs North African residents there (Glenn Hauser, OK, WOR)

** SPAIN. 15390, Wed July 16 at 2200, token English from SNR but on this Af frequency, only a high-pitched tone. Something`s notright at Noblejas. The other three funxional, but MUF is down, weakening SAm 17715 to S9/+10, ceding betterness to 15520 S9+10 for ME off the back direct to here; with 15500 for NAm S9+20/30 best by far. Preview topic to be about the Spanish Association of Consumer Rights. 2201 news leads again with strife in a Murcia town resulting from 3 north Africans attacking a real? Spaniard, leading to riots, demonstrations, protests; ``deport them now`` - not just the culprits. RTVE reporters had to be escorted out with police protexion. And the PM has visited Mauritania - implying that`s where they were from. 2206 on to discussion about a consumer protexion bill, planned obsolescence e.g. light bulbs (Glenn Hauser, OK, WOR)

** TURKEY. 11785, July 10 at 2245 quick check, VOT English is not off the air into UTwente (Glenn Hauser, OK, WORLD OF RADIO 2303)

** TURKEY. 11785.004+, Fri July 11 at 2158, VOT not off the air, IS & ID JBA direct. At 2220 into UTwente when measured, S9+30/45, talk about tourism; 2233 `The Pulse of Turkish Foreign Policy`. 2239 music. 2243 TRTVOTVorld.com promo. 2244 `Did You Know That?` what? topic not copied since Efsun is speaking. 2248 music. 2251 Efsun attempts to convey headlines? Including TurkSat starts beaming internet to Syria. 2253 s/off as if it`s 17620 at 1230. Something`s always awry at Ankara. 2254 first few notes of IS and chopoff, no finesse. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)`

** TURKEY. 11785, Sat July 12 at 2224 check into UTwente, NO signal from VOT English to North America; nor on accidentalternate 9875. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 9750, Sun July 13 at 1905, VOT `Letterbox` already underway at tune-in, S9+30/50 into Noale, Italy SDR I already have running for a WOR check on MW. 1) Mr Kumar; 2) André Kuznetsov; 3) Frances/Francis, Ireland; last) Siddartha --, India, does Turkey celebrate International Day against Drug Abuse, etc. on 26 June? Yes. 1910 ``that is all``, 1911 theme (Glenn Hauser, OK, WOR)

** TURKEY. 9875, Sun July 13 at 2054, since I missed the first few minutes of VOT `Letterbox` on the 1830 transmission, I`m QRX for it on the next repeat, `The Pulse of Turkish Foreign Policy` running now, VG into UTwente. 2100 ``with-you-every hour`` promo; 2101 `L`box` starts. Cemre remarx about the sweltering heat; and TRT is launching a new platform with lots of stuff beyond shortwave: TRT.global/world - then letters mostly from the same few QSL collectors: 1) Jayanta Chakroborty, India; 2) Anatoly Klepov, Moscow, for the July QSL; 3) Kumar, Chennai, India who heard Persian - and that`s where I came in, by 2105.

11785.006+, Sun July 13 at 2237, the next broadcast from 2200 is not off the air, S9+20/40 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, July 14 at 2204, VOT not off the air, S9/+10 JBA direct vs noise level. At 2244 when measured, S9+40/50 into UTwente, ``always-by-your-side`` promo. 2251 ``with-you-ever-hour`` promo, s/off as if 17620 from 1230, awry in Ankara, 2252 IS almost to 2253*.

Some editors like to delete my non-logs of this as if inconsequential: but they are significant, and without them one might wonder why other logs are specified as NOT off the air! We are not simply routinely logging stuff as supposedly scheduled, but building up evidence of failures or at least anomalies, the big picture (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, July 15 at 2236, VOT English not off the air, S9+35/45 into UTwente, music, then unknown talk feature. 2251 apparent headlines by Efsun, seemingly the only announcer who does this; wish I could understand her without strain. Drift down to 11785.002+ by: 2255 s/off as if it`s the 1230 on 17620, awry in Ankara, 9 notes of IS before chop at 2255.6*, no finesse, erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785 & 9875, Wed July 16 at 2159 and later chex, no signals direct nor at 2225 into UTwente from VOT English for N America. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U K O G B A N I. 15490, July 11 at 0524, W&M in English, S9/+10 with flutter. Per EiBi it`s BBCWS via Woofferton this hour only (Glenn Hauser, OK, WOR)

** U S A. Correxion! I originally wrote RHC instead of R. Martí, fixed:
11930 S5 & 11860 JBA, July 7 at 1450, Spanish from Radio Martí resuming on this Monday, and shortly also 13605 at S6 in Spanish. No sign of jamming yet. Three transmitters restored in Grimesland; why not more VOA at other hours? (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO podcasts: ``Keith, Tnx for working on my podcasts. Checking the links I have on my homepage, http://www.worldofradio.com
they all seem to work except feedburner which goes to a document tree. How should we change that? I gather that WOR can be reached thru various other podcast services, many of which I may be unaware of. How can I know or publicize that info? Glenn``

Keith Weston replies July 12: ``Glenn, That document tree is what is to be expected from a bare RSS feed. That is the correct link for feedburner. It's an XML document (which is what a RSS feed actually is). I would mention that WOR is available at Apple Podcasts, TuneIn, YouTube and nearly everywhere you get your podcasts. Because RSS is a distributed system, there are hundreds if not thousands of "clearning {sic} houses". The biggest players are Apple, TuneIn, YouTube, Spotify, etc. The way podcasts work is that you get them listed at a few of those places (mainly Apple, Tunein and Google) and the podcast just populates "everywhere" because other services are built upon these main nodes. I hope that makes sense. The distribution model starts with Feedburner in this case and spreads out in hundreds of nodes from there. Keith`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2302 monitoring: confirmed UT Thursday July 10 at 0130 on WRMI 5010, S9+5/20 into Lima SDR.

Also confirmed Thursday July 10 at 1630 on SW Gold Radio, Germany, 6160.000+, S9 into UTwente with internal tone QRM. Now they are

inserting a quick ID before WOR, after ADDX theme.

WORLD OF RADIO 2303 contents: Algeria, Australia, Benin, Brasil, Bulgaria, Canada [and non], Congo, Cuba non, Germany, Indonesia, (Italy), Korea South and non, Malaysia, Newfoundland, New Zealand, Norway, Oklahoma, Paraguay, Perú, Russia, (Sa`udi Arabia), Solomon Islands, South Carolina non, Tanzania, Turkey, UK, USA and non, Uzbekistan, Yemen non; unID 1280.165 Chile?; propagation outlook - (countries mentioned along with others not in order)

WOR 2303 available from 0153 UT Friday July 11:
(mp3 stream) https://www.w4uvh.net/wor2303.m3u
(mp3 download) https://www.w4uvh.net/wor2303.mp3
Or via http://www.worldofradio.com/audiomid.html
Also linx to podcast services.
Full schedule: http://www.worldofradio.com/radioskd.html

1300 UT Friday WRMI 15770 [first SW broadcast];
2030 UT Friday IRRS SW via AM Italia 1323 and/or 918;
2200 UT Friday WRMI 9955 to SSE;
2230 UT Friday SW Radio, Germany 3975;
0300 UT Saturday WTWW 5085 [sometimes];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2100 UT Saturday WRMI 9395 to NNW [NEW];
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Richard Stoller in Pennsylvania for a contribution via PayPal, in US funds but not necessarily to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: confirmed Friday July 11 at 1300 on WRMI 15770, its first SWBC, JBA S5/S7 direct, after an ID.

Also confirmed Friday July 11 at 2030 on IRRS SW via AM Italia, 917.984 at S7 but sounds louder than the S7 on 1323-, JBA into UTwente across Europe.

Also confirmed Friday July 11 at 2200 on WRMI 9955, JBA direct; at 2219 S9+32 into Georgia SDR.

Also confirmed Friday July 11 at 2230 on SW Gold Radio, Germany, 3975.002, S9+5/10 into UTwente. Next:

0300 UT Saturday WTWW 5085 [sometimes; see below];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2100 UT Saturday WRMI 9395 to NNW [NEW];
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: confirmed UT Saturday July 12 at 0300 on WTWW 5085, S9+50 direct. As usual when it happens, introduced by ``From the ministry of...`` And at 0329 conclusion played about a minute of hymn ``We Gather Together`` before chop at 0330 without ID or s/off announcement. But we`re glad to be on there! Thank you, George.

WOR continues to show on WRMI`s System D - blue program grid, Saturdays at 0930 on 9455; I happen to awaken after 0900 July 12, so check 9455: Classic Redneck Radio`s wacko preacher. That`s what shows on the System E grid. I assume all other programs at 0900-1000 on Sys D 9455 sked be imaginary as well.

Also confirmed Saturday July 12 at 1445 the 1430 on SW Gold Radio, Germany, 6160.002-, S9/+5 into UTwente.

Also confirmed Saturday July 12 at 1600 on WRN North America stream.

Also confirmed Saturday July 12 at 1735 the 1730 on SW Gold Radio, Germany, 6160.000+ at S8/9+5, and a few words behind on 3975.001+, S8 both into UTwente with internal tone QRM.

Also confirmed Saturday July 12 from 1933 on WA0RCR, 1860 AM, MO, S5.5 vs storm noise level into K9VD Jerseyville IL SDR.

Also confirmed Saturday July 12 after 1930 on WRN North America stream.

Also confirmed Saturday July 12 at 2000 on WRN Europe stream. Next:

2100 UT Saturday WRMI 9395 to NNW [NEW];
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];

0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: confirmed Saturday July 12 at 2100 on WRMI 9395, S9 into Georgia SDR.

Also confirmed Saturday July 12 at 2230 on WRMI 15770, S9/+10 into UTwente.

Also confirmed UT Sunday July 13 at 0330 in progress on WA0RCR, 1860 AM, MO, JBA direct in HSNL totaling S9/+10. I was mentioning PKK and Kurdistan? But I don`t think I did so this time nor in the last few weeks; old show? Checking earlier at 0307, in `ARRL Audio News` into N9AZZ remote, CW QRM, a contest on 160?

Also confirmed Sunday July 13 at 1900 on IRRS SW via AM Italia, 918 kHz, S9+22 and 1323 kHz, S9+10 into nearby Noale SDR. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: missed checking Sun July 13 on WRMI 15770; anyone hear it?

Confirmed Sunday July 13 at 2155 the 2130 on SW Gold Radio, Germany, 6160.002+ S9/+15 and 3975.001+ S9/+10 with some storm crashes, into UTwente.

Also confirmed Sunday July 13 at 2330 on WRMI 9455, S9+25 into Georgia SDR.

Also confirmed UT Monday July 14 at 0030 on WRMI 7780, S9+20/33 into south Texas SDR.

Also confirmed UT Monday July 14 at 0300 on Area 51 via WBCQ 5130 -82 Hz 5129.918, S9/+10 into NH SDR. Unfortunately only my first few words of introduxion were shortwaved before cut to canned s/off announcement while WOR continued on webcast. At least it`s not skipped this week. Previous program wrapping at 0259 as `Lost Discs Radio Show on 7415 and 5110`` -sic, long obsolete WBCQ frequencies. Must be ancient recording even tho also during a summer. Next WORs:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: confirmed Monday July 14 at 1930 on SW Gold Radio, Germany, 6160.000-, S9/+15 into UTwente, by recording, presumably also on usual 3975. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: NOT confirmed UT Tuesday July 15 at 0330 on WRMI-13, 7780, since it`s OFF the air. Not a total power outage, and no lightning over Okee right now, while 7570 & 7730 remain on air. 7780 still off at 0642; what`s wrong? Nominal hours are *0000-1100*.

Confirmed Tuesday July 15 at 1300 on WRMI 9955, S8 direct.

Also confirmed Tuesday July 15 at 1400 on WRMI 9955, JBA.

Also confirmed Tuesday July 15 at 2000 on IRRS SW via AM Italia, 1323, S9+10 into nearby Noale SDR; and not on 918 or 207 kHz. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2303 monitoring: ``From: Richard

Lemke, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees. World of Radio (didn't heard #my own radio) {sic}, QSB Fading,
9455 kHz, Static QRN, 2357, music no ID, 2330, 2346, 2357 (35442), 2358, July 13 UTC 2025 [Sunday]
9395 kHz, voice barely heard, 2359, July 15 UTC 2025 [Tuesday] (Lemke, Richard -AB)``

Confirmed Tuesday July 15 at 2330 on WRMI 9395, S9+40/20 into Georgia SDR.

Also confirmed Tuesday July 15 at 2330 on SW Gold Radio, Germany, 3975.002-, S8/S9 into UTwente.

Missed checking UT Wed July 16 at 0030 on WRMI 9395; anyone hear it?

Also confirmed Wednesday July 16 at 1930 on SW Gold Radio, Germany, 6168.001 S9/+15 and 3975.002- S9+5/10 into UTwente.

Also confirmed Wednesday July 16 at 2114 the 2100 on WBCQ 7490 -67 Hz = 7489.933, only S4/S5 into NH SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Richard Stoller in Pennsylvania for a contribution via PayPal, in US funds but not necessarily to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 5085, July 11 at 0634, WTWW unusually on this late, music at S9+40/45, stronger than 5920 with TOMBS, S9/+25. Maybe test, of things to come. I think both were off earlier as usual by 0300 or so. 5085 has no splash or splatter but the JBA spur carriers on 5072.2 and 5097.8; at 0637 Ancient Word Radio ID on 5085. 9930, the daytime counterpart of 5920, is on at 1447 with TOMBS. But still no 9475, daytime counterpart of 5085. Something has been preventing frequency changes on that transmitter (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sat July 12 at 0140, this WTWW is now on, not before 0130, but huge hum makes any programming unintelligible, S9+50 direct. 0152 carrier off & on. Hope it`s clear by 0300 so we can hear World of Radio 2303. Ah, it just cleared up at 0153 (Glenn Hauser, OK, WOR)

** U S A. 5920, July 12 at 0627, WTWW still on with TOM, S9+25/40. Evidently now getting into 24-hour operation (Glenn Hauser, OK, WOR0

** U S A. 5065, 5078 approx., huge dirty blobs come and go, July 13 at 0057 as I tune up, another around 5105, obviously out of the WTWW S9+45, 5085 transmitter tuning up which is on early, modulation from 0100 and extremely distorted on fundamental before clearing up somewhat. The other WTWW is still on 9930 not yet 5920. At 0520, 5085 is off but 5920 on (Glenn Hauser, OK, WOR)

** U S A. 9917.2 & 9942.8, July 16 at 2212, weaker but doubtless spurs, +/- 12.8 kHz out of 9930 WTWW S9+40/50 direct as TOMBS rants against Catholix for worshiping Jesus, Mary, saints, rather than the one and only diety (Glenn Hauser, OK, WOR)

** U S A. 17790, July 15 circa 0000, no signal from WRMI: but this is a reminder to confirm whether it really be on air until 2400 as in the

current skedgrid, instead of -2100 with R. Africa Network. The transmitter grid for WRMI-11 on 17790 at 160 degrees (same as 9955 azimuth) now shows RAN until 2130, red System F at 2130-2200, and green CRR System E at 2200-2400. But the red Sys F program schedule at 2130-2200 shows 15770 only. And there could be even more; NASWA Flashsheet:

``17790 UNKNOWN. UNID, July 6, 2025, 0119-0133. OM with sermon or religious message in EE, possibly from the Vatican. I was unable to find or hear an ID sufficiently well to be positive. SIO 333. Mixed choir with a hymn after the sermon (Vince Henley, WA)`` Well, today July 15 at 0125, no signal on 17790 into Lima (Glenn Hauser, OK, WOR)

** U S A. 17790, July 15 at 2350, checking whether WRMI has extended this as on current sked: yes, still on with Classic Redneck Radio, S7/S9, but off by 0006 check July 16 (Glenn Hauser, OK, WOR)

** U S A. 7780, July 15 at 2351, this WRMI is on already with IS and ID leading up to scheduled 0000 start, S8/9+10 into Georgia SDR; after AWOL last night (Glenn Hauser, OK, WOR)

** U S A. 9330, July 11 at 1445, NO signal from WBCQ/WLCR; what`s wrong? (Glenn Hauser, OK, WOR)

** U S A [and non]. 5130, July 11 at 2349, this WBCQ already on with open carrier - 84 Hz = 5129.916, S9/+10 into NH SDR, and *2355 IS & ID loop. At 0000 July 12, disclaimer that following AAAWWW originally aired on April 4, 2025. Never mind; I reported on it then. Meanwhile I had checked the others: 7490 - 76 Hz = 7489.924, FKB at S9+5/15; 9330 S8/S9. 3265 off. 6160 also off - or a JBA signal is there: per Aoki & EiBi that could only be CRI English to S Asia via Kashgar, EAST TURKISTAN (Glenn Hauser, OK, WOR)

** U S A. 9330, July 13 at 1445, no signal from WBCQ/WLCR. What`s wrong, again? (Glenn Hauser, OK, WOR)

** U S A. 4840, UT Sun July 13 at 0057, `Wavescan` is back on WWCR, VG signal here already, just as Jeff White is saying they are back, at 0030 UT Sundays (Glenn Hauser, OK, WOR)

** U S A. 12050, July 10 at 1925, JBA signal direct, Spanish? Yes, at 2016, S8/S9 into Florida SDR with preacher, so WEWN, RCM is now on the air altho I could not detect it previously on July 9 (Glenn Hauser, OK, WOR)

** U S A. 900, July 11 at 0624 UT, ``The Original KHOZ, 94.9, AM 900`` and C&W music. That`s Harrison AR, U1 1000 day/62 watts night. 94.9 a mere translator, K235CE. Often hear other music at night, trying to ID as KSGL Wichita, 28 watts at night, and semi-local in daytime. So what`s become of XEW which used to own 900 with 250 kW? IRCA Log shows it is the only Mex on 900, 100 kW (Glenn Hauser, OK, WOR)

** U S A. 900, July 12 at 0602, ``Good music on AM 900, WADA ---``, after `Sound of Music` not certainly from same station. Must be WKDA, Lebanon TN, among scores of low-power 900s, heard before and favored on E/W longwire; nominally 136 watts at night, format C&W/NOS - surely the latter at this time (Glenn Hauser, OK, WOR)

** U S A. 1010 kHz, July 13 at 0334 UT, gospel huxtress in English, then switches to Spanish, atop QRM, better on E/W loop than N/S wire. That format would fit best the very first 1010 in the NRC AM Log, KXXT Tolleson AZ, U7 300 watts night, REL/SS:REL - tho KDJW Amarillo TX would be more likely, U4 500 W night, EWTN, which could be bilingual, but on a single station? (Glenn Hauser, OK, WOR)

** U S A. 1130 kHz, July 13 at 0332 UT, tones and NWS warning of flash floods in TX, so must be KWKH Shreveport LA, vs music from KLEY KS cheater, and soon back to silly sports talk (Glenn Hauser, OK, WOR)

** U S A. 1160, July 11 at 0529 UT, ad with 847 area code, soon fade out and KSL remains with 435 area code ad. 847 is suburban Chicago, i.e. WYLL, U4 50/50 kW; 435 is Salt Lake City area (Glenn Hauser, OK, WOR)

** U S A. 1280, July 10 at 0559 UT, Black Information Network; surely WODT New Orleans LA, U3 5000/5000, only one on 1280 in NRC AM Log; and the usual 1280 dominant here, originally WDSU until 1972 (Glenn Hauser, OK, WOR)

** U S A. 1420, July 10 at 0600 UT, ``1420 and 106.3, Hot Springs` first ---`` ID in English after Mexmx. I thought two different stations, but NRC AM Log shows KBHS is in Spanish, 5000/87 watts at night, with 106.3 of course a mere translator, K292HG, ``La Caliente``. But the town is not yet renamed Aguascalientes? (Glenn Hauser, OK, WOR)

** U S A [and non]. FM DX opening July 16: see CANADA [and non]

** VANUATU. 9960, July 11 at 0517 direct, JBA signal considerably off-frequency-minus, on the R75, compared to 9955 WRMI and 10000 WWVH. Unlike R. Vanuatu, evidently receiver birdie or something else, for at 0541 into Townsville SDR, RV quite good, matches WWVH (Glenn Hauser, OK, WOR)

** VANUATU. 9960, July 16 circa 0630, usual signal from R. Vanuatu; but at 1406 a JBA carrier direct; and 1450-1500+ into Townsville SDR, S9+10 of dead air except for some hum, some slight SSB QRM nearby. Still DA at 1631. Off by 1747. As no other stations are ever using 9960, presumably RV leaves its carrier on overnight (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 730, July 13 at 0345 UT, songs in English, better on N/S antenna than E/W. Suspected XEX straying from sports in Spanish; or KKDA Dallas, the ``Korean`` station? At 0351 there is some Spanish sports talk (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.54, July 10 at 0606 UT, still getting that mystery JBA carrier slightly variable, hetting 810.00 WHB. Still not in mwoffsets, where most info concerns splitting hairs/Hz much closer to nominals (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4975, July 14 at 0336, JBA carrier. No broadcasters listed by HFCC or EiBi or Aoki in 2025, nor is there usually any ute here. Still at 0515 on other receiver. In handy WRTH 2016, there were a Peruvian and a Brazilvian (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7656.0, July 15 at 0639, S9/+10 open carrier on another of those mysteries always ending in -6 which I think therefore be related.
Searching my archive, in 2022, 7656.0 comes up as a Civil Air Patrol USB channel for Region 1 net in the Northeast, i.e. New England, NY, NJ, PA, along with others not ending in -6, so unlikely pertinent. OC last logged this year on March 24 and April 30 with clickery (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9320, July 11 at 1445, JBA signal. Probably CNR1 jammer vs Sound of Hope, but KTWR in Korean also scheduled (Glenn Hauser, OK, WOR) {Why in the world would TWR choose to be on same frequency as China radio war?}

UNIDENTIFIED. 11600, July 11 at 1443, music seems choral/instrumental, S6/S8, then Chinese? talk. Eibi shows FEBC Manila in Mandarin, but could also be CNR1 jammer vs Sound of Hope (Glenn Hauser, OK, WOR) {Why in the world would FEBC choose to be on same frequency as China radio war?}
